

Never Alone, Always Together

State Elections on September 1st

In the state elections, the members of the Saxon state parliament are elected. This parliament makes important decisions for your life. But do you feel that nothing ever improves in your life? Most members of parliament are not really concerned about us but only about the interests of the rich and themselves.

I want to do it differently now.

It's time to turn things around!

Why Should You Vote for Me?

My name is **Nam Duy Nguyen**, and I am the Left Party's direct candidate for the Leipzig Mitte-Ost constituency where you live. I am running to represent the interests of the people in my neighborhood in the state parliament because no one else does. I am a child of contract workers from Vietnam. I am East German and a passionate football player. Growing up in poverty, high rents, expensive food, or exclusion: this is also my reality.

For a Saxony We Deserve

In recent months, my team and I have knocked on doors in the constituency almost daily to find out what concerns the people in our district have. From this, I have derived these goals for my future political work. I advocate for:

- Making **rents** finally **affordable**.
- **Earning what we truly deserve for our work**.
- **Making life** in Saxony **affordable again**, allowing us to **shop for groceries without worry**.
- **Expanding bus, tram and train services and keeping Leipzig a city for the people**.

Therefore, I ask for your **first vote** (*Erststimme*) on September 1st.

No out-of-touch politics. That is my promise.

I cannot lower rents or procure more buses for our city on my own. I am honest. But I give you a **promise: to always exert pressure and not cave in like all other parties.** The state parliament is not a career ladder for me but a way to fight for real changes **together with you.**

High salaries lead to out-of-touch politics. That's why I want to cap my salary as a member of parliament at 2,500 euros per month. Everything beyond that, I will donate to people in need and social initiatives, so the money goes where it's needed. Additionally, I will **continue to offer my social consultation hours regularly** in office, to provide advice and assistance to the people.

See You Here:

On Saturday, August 17, our summer festival will take place in the Rabet park. We want to get to know our neighbors with a snack and good music. Come by and celebrate with us!

Let's stay in touch. Come by!

You might think this sounds good, but is it really true? Feel free to come to my consultation hours if you want to get to know me. If you have a specific problem or concern, we can work on a solution together. By the way, I will also offer this consultation after the election to be there for the people on-site.

Every Friday from 3 to 5 PM at the Liebknecht-Haus on Braustraße 15.

Should I keep you updated? Do you want to support my campaign?
